Seminar Overview

Join us for workshops, presentations and discussions on the latest technologies and curriculum techniques. There is a choice of parallel sessions to choose from with speakers from all over Australia.

The seminar is being targeted at both IT Managers and teaching staff of Queensland schools. It's an opportunity to learn and also to network with your peers.

Seminar Programme

The I.T. in Education 2002 Seminar will provide participates with the opportunity to attend technical or curriculum sessions which will run in parallel.

Technical Sessions:

The technical sessions will be of particular interest to IT Managers, Administrators, Technology Co-ordinators, Principals or Teachers who wish to expand on their existing knowledge base.

Topics include:

Session 1: Symantec Ghost Edition 7.0
Session 2: Unleash the Power of FileMaker!
Session 3: Next Generation Portal Technologies
Session 4: Future Web Technologies
Session 5: CD Quickshare
Session 6: Configuring the Squid Internet Proxy Server
Session 7: Wireless in Education
Session 8: Windows 2000 Terminal Server
Session 9: Arcserve IT

Curriculum Sessions:

The curriculum sessions will be of particular interest to teachers of all subjects who are keen to improve their skills at integrating ICT into the classroom.

Topics include:

Session 1: Designing Dynamic Websites
Session 2: Supporting the Student in Open and Distance Learning
Session 3: Fun with Microsoft Office 2000

Sponsored by:

(brochure produced on a canon printer)

Session 4: CorelDRAW!
